WORK EXPERIENCE

Frontend Developer   07.2022-present

Simple Co. | Baku

As part of my work on the İFRS 9 system, I was responsible for developing an intuitive and efficient interface to facilitate user interaction with the platform. The key features I implemented include:
- A secure login/logout system with the ability for users to change their passwords
- A customizable dark/light mode for enhanced visual comfort
- Innovative drag-and-drop technology to ensure seamless integration between different components of the interface
- Dynamic chart and graph generation based on the data provided, enabling users to easily visualize and analyze complex financial data
- The ability for users to upload their own charts in png or jpeg format
- The ability to download or upload data in a range of different file formats
- Dockerization of the project to enable seamless deployment and scaling of the system on various platforms and environments
These and other features I implemented enable users to work more efficiently and effectively with the ifrs-9 system.

Frontend Developer | Internship   11.2021

Soft Solution | Baku

As an intern, I had the opportunity to participate in a comprehensive one-month program that encompassed a variety of tasks and assignments. Throughout my time, I honed my skills in problem-solving by tackling challenging algorithmic tasks and refined my abilities in website development. I also gained valuable experience working with API, an essential tool for modern software development. This immersive internship program provided me with a strong foundation for success in my future career endeavors.

Full Stack Developer | Internship   08.2020-11.2020

YelloAd Advertisement Agency | Baku

During my 3-month internship program, I was responsible for the preparation and customization of web pages based on provided designs. This involved implementing changes to existing web pages, as well as creating new ones from scratch. Through this experience, I gained valuable knowledge and skills in web development, design principles, and project management. Additionally, I collaborated with team members to ensure timely completion of projects while maintaining a high level of quality. Overall, my internship provided me with hands-on experience in the field of web development and allowed me to further develop my skills in this area.
